## PROJECTS

### Snippet Manager App (CRUD)

Next.js, TypeScript, Tailwind CSS, MongoDB, Vercel

Built a full-stack code snippet app using Next.js App Router. Supports creating, editing, deleting, and viewing code blocks. Used dynamic routing, API routes, and deployed to Vercel.

### Book Review Platform

React.js, Redux, Node.js, Express.js, MongoDB, JWT

Full-stack book review app with login, role-based access, meta tags, and SEO improvements. Integrated image uploads, secure APIs, and responsive design.

### Blinkit Clone (In Progress)

React.js, Redux Toolkit, Node.js, MongoDB

Real-time grocery app clone with cart, admin dashboard, and location-based listing. Built using modular components and JWT-based authentication.

### Task Manager (Single-User)

React.js, Node.js, Express.js, MongoDB

Personal task board with full CRUD, JWT-protected backend, and Tailwind-styled frontend.
